“Reacting to Negative Situations”

What do you do when the bottom falls out? When the bubble bursts? When it looks like your dreams are turning into ashes? WHAT DO YOU DO?...

Keep on believing!! You have not lost everything until you have lost your faith! And that's a choice...never an accident! You reserve the right to choose your reaction to whatever happens. You always have the right to react positively or negatively.

The worst thing that can happen to you is to develop *victimitis*. “Victimitis” is carrying your grudge and nursing your hurts. This only produces a whole new batch of emotional demons to torment you. God can handle the injustice a lot better than you can!! So decide today to react positively...

- I am going to be thankful to God – anyway!
- I will be rejoicing – nevertheless!
- I can turn this tragedy into triumph!

It's time to lean back and allow God to take the reigns of your life!

Have a blessed week! See you in church Sunday!
