“The Voice of Faith”

Faith is more than positive thinking. It is positive talking. The Bible tells us that “without faith it is impossible to please God.” But faith must be verbalized. By the word of God, the heavens and earth were created. GOD SPOKE AND IT HAPPENED!

So here are some things we need to remember:

- Fantasizing becomes incarnate in verbalizing.
- Ideas take the form of the spoken word.
- Believing expresses itself in speaking.

Faith must rise to the level of affirmation. Declare you are the person you want to be. Tell yourself you have accomplished what you hope to accomplish because “you can do all things thru Christ who strengthens you!”

When you feel down and discouraged, don't yield to the mood. “This too shall pass.” Every cloud has a silver lining. There is a rainbow after the storm. Ask God to give your faith the flexibility to maneuver between the highs and lows, the ups and downs, the ins and outs.

Let the object of your faith be God! And your faith in Him will keep you moving forward by maneuvering between success and failures, accomplishments and setbacks, victories and defeats.

Have a blessed week!
